Resources for selecting native plants for pollination gardens

Xerces, Pollinator Conservation Resource Center:

<https://xerces.org/pollinator-resource-center>

Click on your geographic region to get started.

Xerces Society: Native pollinator plant lists for different geographic regions in the U.S. <https://xerces.org/node/574>

Pollinator Partnership Ecoregion Planting Guides:

<https://www.pollinator.org/guides> Enter a zip code for your recommended guide OR scroll down and select from the list of all the guides

Pollinator Partnership: Native Pollinator Garden Recipe Cards (condensed version of the planting guides) <https://www.pollinator.org/gardencards>

Audubon Society: Enter your desired zip code to obtain a list of plants that birds use for resources. You can add filters to reduce the size of your list (filters such as type of plant—tree-shrub-vine-grass, etc. & whether the plant is attractive for caterpillars and butterflies)

<https://www.audubon.org/native-plants>

Local: Native plant societies; Local public gardens & arboretums
